Kelsey's Horticultural and Landscape Service

Harlan P. Kelsey, Inc. offers a skilled service devoted to the creation of finer landscapes. After a careful study of each individual problem we recommend a development which will fit the particular location so as to combine beauty and convenience with economy of construction and maintenance. Our background of sound designing and horticultural experience assures such results.

Overgrown or run down gardens can often be improved immeasurably by readjustment, pruning, fertilization, and the addition of a few plants. Let us help you make your garden more interesting and enjoyable.

Small home grounds are given the same careful planning and consideration as larger developments, which include Private Estates, Business and Industrial Plants, Country Clubs, Parks and Playgrounds, Educational Institutions, Churches, Hospitals and Cemeteries. We hope you will feel free to consult us about any of your horticultural problems and you may be assured of our personal attention to your inquiries.

No charge is ordinarily made for a preliminary conference at our office, or on the grounds where most effective results are usually obtained. If, however, considerable time or distance is involved a minimum charge is made to cover costs.

Classes of Plants in General Alphabetical Listing

CONIFEROUS EVERGREENS

Abies Picea Taxus
Cedrus Pinus Thuja
Chamaecyparis Pseudotsuga Tsuga

Juniperus

BROADLEAF EVERGREENS

Andromeda Epigaea Leucothoe catesbaei

Arctostaphyllos Erica Mitchella
Buxus Euonymus Pachistima
Calluna Galax Pachysandra

Cedrus Gaylussacia Pieris

General Alphabetical Listing

Note: Figures immediately following names indicate the approximate heights reached by the trees and shrubs under normal conditions, first under cultivation, and then in their natural habitats.

Hv.- Horticultural Variety; these do not come true from seed; they are either "polybrids" or selected "clons" of polybrids.

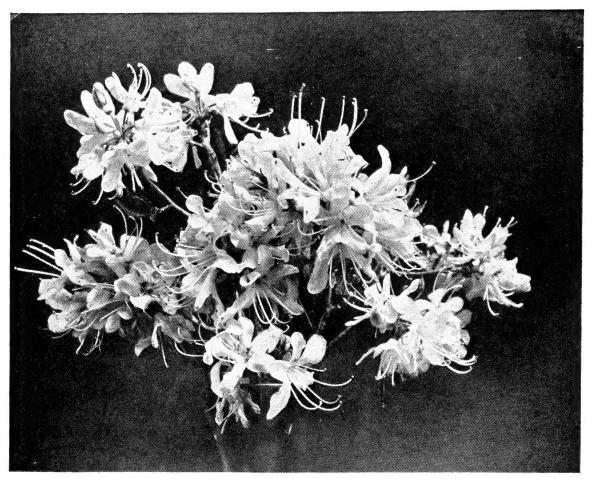

X — Hybrid; a cross between parents of different species or varieties.

For 1-4 plants of a kind and size use the single rate, for 5-24 the ten rate. Special prices on large quantities.

| ABIES concolor, White Fir, 60-120 ft. | Each | Per 10 |

Azalea vaseyi PINKSHELL AZALEA

AZALEAS

We list only the native and most hardy exotic varieties. These acid-soil loving plants mass well with the broadleaf evergreens and are distinct and beautiful additions to any planting. Though not evergreen they are closely related to the Rhododendrons and require similar soil conditions and care.

| AZALEA arborescens, Sweet Azalea, 6-20 ft. Very fragrant white or pinkish-white flowers in June or July. Striking red autumn foliage. | Each | Per 10 |
|--|-------|-----------------|
| 18-24 in. B&B | 3.75 | 33.75 |
| 2-3 ft. B&B | 5.25 | 47.25 |
| 3-4 ft. B&B | 7.00 | 63.00 |
| AZALEA calendulacea, Flame Azalea, 6-12 ft. Yellow, orange or scarlet flowers in May or June. The finest of all species, native or exotic, and a noble representative of our rich Carolina mountain flora. | | |
| 18-24 in. B&B | 4.50 | 40.50° |
| 2-3 ft. B&B | 5.50 | 49.50 |
| 3-4 ft. B&B | 8.00 | |
| 4-5 ft. B&B | 12.00 | |

| AZALEA canescens, PIEDMONT AZALEA, 6-16 ft. Showy tubular pink fragrant flowers in May. Rarely exceeds 6 feet in the garden. A mass planting makes a gorgeous spectacle. | Each | Per 10 |
|---|---|------------------|
| 18-24 in. B&B | 3.50 4.50 7.00 | 31,50 |
| AZALEA nudiflora, Pinxterbloom Azalea, 6-8 ft. Beautiful clear pink, flowering early just after Azalea vaseyi. | | |
| 4-5 ft. B&B | 10.00 13.50 | |
| AZALEA obtusa, HIRYU AZALEA, 1-3 ft. A choice, dwarf, almost evergreen form with small bright green leaves and rosy-purple flower. | | |
| 6-9 in, B&B | $\frac{2.00}{3.00}$ | $18.00 \\ 27.00$ |
| AZALEA obtusa kaempferi, Torch Azalea, 7-10 ft. One of the most brilliant with red or orange-red flowers profusely borne in late April or early May. | | • |
| 15-18 in. B&B | $\begin{array}{c} 3.50 \\ 5.00 \end{array}$ | |
| AZALEA schlippenbachi, Royal Azalea, 7-15 ft. In May the large rose-colored flowers 2½-3 inches across make a notable showing. Bright yellow, orange or red autumn color. 15-18 in. B&B | 3.50 | 31.50 |
| 18-24 in. B&B | $\begin{array}{c} 5.00 \\ 7.00 \end{array}$ | 45.00 |
| AZALEA vaseyi, Pinkshell Azalea, 6-15 ft. Introduced by Harlan P. Kelsey. The delicate white, pink or deep rose-colored flowers are conspicuous in April or early May before the foliage appears. A free bloomer, even when small, this is one of our choicest American ornamentals. | | |
| 18-24 in, B&B | 4.00 | 36.00 |
| 2-3 ft. B&B | 6.00 8.00 10.00 14.00 | 54.00 91.00 |
| AZALEA viscosa, Swamp Azalea, 8-12 ft. Fragrant white flowers in June and July. Useful for damp locations. | | |
| 18-24 in, B&B | 3.00 5.00 | 27.00 45.00 |

| AZALEA yedoensis poukhanensis, Yodogawa Azalea, 2-3 ft. | Each | Per 10 |
|---|------------------------|---------------------------|
| A broad low variety with a profusion of large orchid- colored flowers in May. Most useful where a low shrub is desired. | | |
| 9-12 in, B&B | $2.50 \\ 3.50$ | $\frac{22.50}{31.50}$ |
| BERBERIS koreana, Korean Barberry, 5-7 ft. Attractive upright shrub with broad, bright green leaves, dense yellow flower cluster, and vivid red persistent fruit. Deep red autumn color. | | |
| 2-3 ft | $2.00 \\ 3.00 \\ 4.00$ | $18.00 \\ 27.00 \\ 36.00$ |
| BERBERIS sieholdi, Siebold Barberry, 4-5 ft. Very distinct and ornamental, the leaves purplish when unfolding, marked with green veins, changing to bright vinous-red in autumn. Persistent bright-red lustrous fruit. | | |
| 12-15 in | 1.00 1.50 | |
| BERBERIS thunbergi, JAPANESE BARBERRY, 3-8 ft. A universal hedge plant, with pale yellow flowers in April and May, followed by deep red fruit and brilliant red autumn color. | | |
| 15-18 in. (40.00 per 100) | .50 .60 | 4.50 5.40 |
| BERBERIS thunbergi atropurpurea, Redleaf Japa- Nese Barberry, 3-6 ft. Purple red leaves make this a striking and distinct variety. | | |
| 18-24 in | 1.25 | 11.25 |
| BETULA lutea, Yellow Birch, 70-90 ft. Ornamental tree with yellowish or silvery-gray bark, reddish brown on old trunks. | | |
| 8-10 ft. B&B | 8.00 11.00 | |
| BETULA nigra, RIVER BIRCH, 50-100 ft. A graceful tree with conspicuous reddish-brown or grayish bark. Fine for moist locations. | | |
| 8-10 ft. B&B | 7.50 10.00 | 67.50 90.00 |

| BETULA papyrifera, PAPER BIRCH, 60-100 ft. This noble tree, the canoe birch of the Indians, is indispensable to the landscape designer. | Each | Per 10 |
|--|-------------------------------|-----------------------|
| 6-8 ft. B&B | 6.00 8.00 11.00 | $54.00 \\ 72.00$ |
| BETULA pendula (alba), European White Birch, 50-75 ft. Large tree with shining white bark. | ***** | |
| 5-6 ft. B&B 6-8 ft. B&B 8-10 ft. B&B 10-12 ft. B&B | 5.00 6.00 8.00 11.00 | 45.00 54.00 72.00 |
| BETULA pendula gracilis, Hv. Cutleaf Birch, 50-75 ft. A universal favorite, with graceful weeping branches, and the white bark characteristic of the species. 5-6 ft. B&B 6-8 ft. B&B | 4.50 6.00 | |
| BETULA populifolia, Gray Birch, 30-60 ft. A friendly tree of open woods and pastures. 6-8 ft. B&B | 5,00 | 45.00 |
| 8-10 ft. B&B | 7.50 10.00 | $67.50 \\ 90.00$ |
| BUXUS microphylla koreana, Korean Littleleaf Box, 2 ft. At last an entirely hardy box, needing no winter protection. Fine for hedge where a low plant is desired. | | |
| 3-6 in | $1.00 \\ 1.50$ | 9.00 13.50 |

PLANTINGS FOR BIRDS. Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. Birds are a constant joy and entertainment in the garden—a bird-feeding station in a corner of your garden dedicated to bird life will be a continuing delight. See Page 53 for Berry Bearing Plants.

HEDGES, WINDBREAKS AND SCREENS. The growing of fine material for evergreen and deciduous hedges, windbreaks and screens is a specialty at Kelsey-Highlands Nursery. For protection from harsh winds, for masking unsightly views and to insure privacy the larger screens are often invaluable. Lower hedges and borders are pleasing essentials in many garden designs. We will gladly submit recommendations and quotations for individual problems. A far wider list is available for these uses than is generally supposed.

SCOTCH HEATHER (Calluna vulgaris)

HEATHER

| CALLUNA, HEATHER All varieties of heather are evergreen. In general they rarely exceed two feet in height, and are valuable for ground-cover in sunny locations and poor soils. Occasional shearing helps to keep them compact. All flower in late Summer and early Fall, all are pot grown. | Each | Per 10 |
|---|------|--------|
| CALLUNA vulgaris, Scotch Heather, 2-3 ft. Reddish-purple flowers. 6-9 in | .90 | 8.00 |
| CALLUNA vulgaris alba, White Scotch Heather, 1½-2 ft. White flowers. 6-9 in. | .90 | 8.00 |
| CALLUNA vulgaris, Hv. Alport Heather, 2 ft. Crimson, very fine. 6-9 in. | 1.00 | 9.00 |
| CALLUNA vulgaris, Hv. Argentea, 1 ft. Crimson flowers, silvery foliage, low. 3-6 in. | .70 | 6.25 |

| CALLUNA vulgaris, Hv. Cuprea, 1½ ft. Pink flowers and bronze foliage. | Each | Per 10 |
|--|------|--------|
| 3-6 in | .90 | 8.00 |
| 6-9 in | 1.25 | 11.25 |
| CALLUNA vulgaris, Hv. Hammond, 2 ft. White flowers, bright green leaves, strong grower. | | |
| 3-6 in | .70 | 6.25 |
| CALLUNA vulgaris, Hv. Hirsuta, 1½ ft. Purple flowers. | | |
| 3-6 in | .70 | 6.25 |
| 6-9 in | 1.00 | 9.00 |
| 9-12 in | 1.50 | 13.50 |
| CALLUNA vulgaris, Hv. Moss (nana), 6-9 in. Pink flowers, very dwarf habit, a shy bloomer. | | |
| 3-6 in | 1.00 | 9.00 |
| CALLUNA vulgaris, Hv. Multiplex, 1 ft. Double pink flowers, choice. | | |
| 3-6 in | 1.00 | 9.00 |
| 6-9 in | 1.25 | 11.25 |
| CALLUNA vulgaris, Hv. Searle, 1½ ft. White, late flowering, open growth. | | |
| 3-6 in | .70 | 6.25 |
| 6-9 in | 1.00 | 9.00 |
| CALLUNA vulgaris, Hv. Tall (elata), 1½ ft. White flowers. | | |
| 3-6 in | .70 | 6.25 |
| 6-9 in | 1.00 | 9.00 |
| CALLUNA vulgaris, Hv. Tennella, 1 ft. Lavender flowers. | | |
| 3-6 in | .70 | 6.25 |
| 6-9 in | 1.00 | 9.00 |
| CALLUNA vulgaris, Hv. Silky (pilosa), 1 ft. White flowers, gray-green foliage. | | |
| 3-6 in | .70 | 6.25 |
| 6-9 in | 1.00 | 9.00 |
| CALYCANTHUS floridus, Common Sweetshrub, 4-10 ft. | | |
| Curious reddish-brown fragrant flowers in June and July. A native species. | | |
| 18-24 in | 1.25 | 11.25 |
| 2-3 ft | 1.75 | 15.75 |

For 1-4 plants of a kind and size use the single rate, for 5-24 the ten rate. Special prices on large quantities.

| CARPINUS betulus, European Hornbeam, 50-70 ft. An interesting tree, having very hard wood, and birchlike leaves 3-4 inches long. Smooth, gray, closefitting bark. | Each | Per 10 |
|--|---|---|
| 3-4 ft. B&B | $5.00 \\ 8.00 \\ 12.00$ | |
| CARPINUS carolinianum, American Hornbeam, 30-40 ft. | | |
| American species with closely-ribbed or fluted bark. 10-12 ft | 20.00 | |
| CEDRUS libani, Cedar-of-Lebanon, 40-120 ft. The hardy Arnold Aboretum form of this historic tree. A beautiful and stately tree, with rich green leaves and somewhat irregular growth. A very few plants only are available. | | |
| 9-12 in. B&B | 6.00 | |
| CELTIS occidentalis, Common Hackberry, 50-100 ft. Straight trunk and spreading branches, forming a handsome round-topped head. Bright green leaves turning light yellow in autumn. Orange-red to dark purple fruit. | | |
| 2-3 ft | $\begin{array}{c} 2.00 \\ 3.00 \end{array}$ | |
| CHAENOMELES lagenaria, Common Flowering- Quince, 5-7 ft. Red or scarlet-red flowers in April (rarely late March) and lustrous dark green leaves. Sometimes used for hedges. | | |
| 18-24 in | 1.00 1.50 | 9.00 13.50 |
| CHAMAECYPARIS pisifera filifera, Sawara Thread Falsecypress, 10 ft. Broadly pyramidal small tree or shrub, with interesting elongated thread-like branches. | | |
| 3-4 ft. B&B | 7.00 | |
| CHAMAECYPARIS pisifera plumosa, Plume Sawara Falsecypress, 30 ft. Dense conical tree with ascending branches and feathery branchlets giving it a soft fluffy appearance. | | |
| 2-3 ft. B&B | $\begin{array}{c} 5.00 \\ 6.50 \end{array}$ | $\begin{array}{c} 45.00 \\ 58.00 \end{array}$ |
| | | |

RENOVATION OF GARDENS AND PLANTATIONS. Overgrown or run down gardens can often be improved immeasurably by readjustment, pruning, fertilization, the addition of a few plants, etc. Let us help you make your garden more interesting and enjoyable.

| CHAMAEDAPHNE calyculata, Leatherleaf, 3-5 ft. Small white flowers in April-June, and dull green leaves. This native broadleaf evergreen prefers a moist or boggy location. | Each | Per 10 |
|---|---|-------------------------|
| 18-24 in. B&B | 3.00 4.00 | $27.00 \\ 36.00$ |
| CHIONANTHUS virginicus, White Fringetree, 10- | | |
| 15 ft. Profuse white flowers in showy panicles in May-June and dark blue fruit make this a highly prized ornamental shrub. Give it plenty of room. | | |
| 3-4 ft | 2.00 | 18.00 |
| CLADRASTIS lutea, AMERICAN YELLOWWOOD, 40-60 ft. Fragrant white flowers in loose drooping panicles in mid-summer. A charming native species. | | |
| 2-3 ft | 3.00 | 27.00 |
| CLETHRA alnifolia, SUMMERSWEET CLETHRA, 5-10 ft. This dependable native species has delightfully fragrant white flowers from late July thru Sept. | | |
| 2-3 ft | 1.50 | 13.50 |
| CLETHRA alnifolia rosea, PINK SUMMERSWEET CLETHRA, 5-10 ft. This attractive rare pink-flowered variety is a must for those who want late summer color and fragrance. 18-24 in | 2.50 | |
| $2-2\frac{1}{2}$ ft. | 3.50 | |
| CORNUS alternifolia, Pagoda Dogwood, 15-25 ft. Branches in horizontal tiers, accounting for its name. White flowers in May. Dark blue fruit in August. | | |
| 2-3 ft | $\begin{array}{c} 1.50 \\ 2.00 \end{array}$ | 13.50 18.00 |
| CORNUS florida, Flowering Dogwood, 20-70 ft. This noblest of native flowering trees is a universal favorite. The showy white flower bracts make it a gorgeous sight in May, and scarlet fruit as well as brilliant red leaves make it one of autumn's showiest plants. | | |
| 3-4 ft. B&B | $4.00 \\ 5.00 \\ 6.50$ | 36.00 45.00 58.50 |
| CORNUS florida rubra, PINK FLOWERING DOGWOOD, 20-50 ft. Pink-flowering variety. Splendid when planted to contrast with the white. | | |
| 2-3 ft. B&B | $\begin{array}{c} 5.00 \\ 6.50 \end{array}$ | |
| 5-4 II. D&D | 0.00 | |

| | | • |
|--|-------------|---------------|
| CORNUS racemosa, Gray Dogwood, 8-16 ft. White flowers in June-July, and attractive white fruit on red fruit-stalks in September-October. The persistent fruit-stalks give it a warm reddish glow well into the winter. Attractive to birds. | Each | Per 10 |
| 4-5 ft | 2.50 | |
| CORNUS sanguinea, Bloodtwig Dogwood, 6-12 ft. White flowers, May-June and purple-black fruit in September. The red branches are bright all winter. | | |
| 3-4 ft | 1.50 | 13.50 |
| CORNUS stolonifera, Redosier Dogwood, 5-8 ft. White flowers, May-June. Similar to above, but lower, with blood-red branches. | | |
| 2-3 ft | 1.25 | 11.25 |
| 3-4 ft | 1.75 | 15.75 |
| CORNUS stolonifera, Hv. Kelseydwarf Redosier Dogwood, 2 ft. Originating at Kelsey-Highlands Nursery. This rare | | |
| dwarf form is fine for low hedges, rarely exceeding two feet in height. Bright red twigs. | | |
| 18-24 in | 2.00 | |
| COTONEASTER dielsiana, DIELS COTONEASTER, 6-8 ft. Pinkish flowers in June, and coral-red fruit on arching branches in September-October. A fine shrub. | | |
| 18-24 in | 1.50 2.00 | 13.50 18.00 |
| , | 2.00 | 10.00 |
| COTONEASTER divaricata, Spreading Cotoneaster, 6-8 ft. | | |
| Pink flowers in June. Bright red fruit in autumn. | | |
| 18-24 in | 1.50 | 13.50 |
| 2-3 ft | 2.00 | 18.00 |
| COTONEASTER horizontalis, Rock Cotoneaster, 1½-3 ft. | | |
| A half-evergreen low shrub with horizontally spreading branches. Small pinkish flowers in June and bright red sub-globose fruit in September-October. | | |
| 6-9 in. (pot grown) | 1.00 | 9.00 |
| COTONEASTER horizontalis perpusilla, Ground Cotoneaster, 1-2 ft. | | |
| Similar to above but more small branches. Fruit smaller but more numerous. Orange-red autumn color. | | |
| 18-24 in. spread (pot grown) | 2.50 | 22.50 |
| (46) | | |

| COTONEASTER horizontalis wilsoni, Wilson Ground Cotoneaster, 1-2 ft. | Each | Per 10 |
|--|-------|--------|
| Similar, but a little looser in habit of growth. | | |
| 9-12 in. spread (pot grown) | 1.50 | |
| 12-15 in. spread (pot grown) | 2.00 | |
| COTONEASTER lucida, Hedge Cotoneaster, 5-9 ft. Upright deciduous shrub, pinkish flowers in May-June, black fruit in September. | | |
| 18-24 in | 1.50 | 13.50 |
| COTONEASTER microphylla, Rockspray Coton- easter, 2-3 ft. | | |
| A fine low evergreen shrub, with spreading branches forming a dense mass. White flowers and purple anthers in May-June, quarter inch scarlet fruit in September-October. | Ţ. t | |
| 6-9 in. spread (pot grown) | 1.00 | 9.00 |
| CRATAEGUS arnoldiana, Arnold Hawthern, 15-20 ft. | | |
| Small ornamental tree forming a broad irregular crown. Large white flowers in early May, and large scarlet or crimson fruit in August-September. | | |
| 4-5 ft. B&B | 5.00 | |
| 5-6 ft. B&B | 7.00 | |
| 6-7 ft. B&B | 10.00 | |
| CRATAEGUS coccinioides, Kansas Hawthorn, 20- 25 ft. | | |
| Compact clusters of white flowers in May, followed by lustrous dark crimson fruit in early October. 6-7 ft. B&B | 9.00 | |
| CRATAEGUS crusgalli, Cockspur Hawthorn, 20-30 ft. Attractive in bloom, with white flowers in May or June. Bright red fruit in Fall and Winter. Leaves turn to orange and scarlet in Fall. Numerous slender thorns make it useful where an impenetrable hedge is desired. | | |
| 6-7 ft. B&B | 9.00 | 81.00 |
| CRATAEGUS oxyacantha, Hv. Pauls Scarlet Haw- | | |
| THORN, 15-25 ft. One of the most brilliant small flowering trees, with double bright scarlet flowers in late May. 5-6 ft. B&B | 7.50 | |
| CRATAEGUS phaenopyrum, Washington Haw- | | |
| THORN, 20-30 ft. One of the very best Hawthorns, with profuse white flowers in May-June, and lustrous scarlet fruit in September-October. | | |
| 5-6 ft. B&B | 7.00 | |
| | | |

| DAPHNE cneorum, Rose Daphne, 9-12 ft. Especially fragrant rosy-pink flowers profusely borne in May-June. Lighter bloom in Fall. This low evergreen shrub is deservedly popular. | Each | Per 10 |
|--|----------------|------------------|
| 6-9 in. spread | $1.25 \\ 1.75$ | 11.25 15.75 |
| DAPHNE mezereum, February Daphne, 4 ft. A harbinger of Spring, with rosy-purple flowers in March or earliest April, before the foliage appears, followed by handsome bright red fruit. A real gem. | | |
| 12-18 in | $2.00 \\ 2.75$ | $18.00 \\ 24.75$ |
| DEUTZIA gracilis, SLENDER DEUTZIA, 2½-3 ft. A fine low shrub, with white flowers in June. | | |
| 15-18 in | 1.50 | 13.50 |
| xDEUTZIA lemoinei, Lemoine Deutzia, 4-6 ft. A handsome and free-flowering shrub, with white flowers in June. Hardiest of the genus. | | |
| 18-24 in | 1.50 | 13.50 |
| DEUTZIA scabra, Hv. Pride of Rochester, 12 ft. Much taller; white flowers tinged with rose. | | |
| 3-4 ft | 1.75 | 15.75 |
| DIERVILLA sessilifolia, Southern Bushhoneysuckle, 3-5 ft. Sulphur yellow flowers in late June, July and August, when not many shrubs are in flower. | | |
| 2-3 ft | 1.50 | 13.50 |
| EPIGAEA repens, Trailing Arbutus, 1-3 in. The state flower of Massachusetts. White to rose- colored flowers in very early spring with a rich, spicy fragrance. The evergreen leaves make a fine ground cover. Prefers moist but well-drained loca- tion with plenty of humus. | | |
| Strong pot grown | 1.25 | 11.25 |
| ERICA carnea, Spring Heath, 8-15 in. Rosy-red flowers in late March or early April. A fine low evergreen species for the rock garden or low border. | 1 | |
| 4-6 in | 1.00 | 9.00 |

See Pages 52-58 for valuable lists of plants for special purposes and environments.

| EUONYMUS alatus, Winged Euonymus, 10-15 ft. Curious corky winged twigs. A large shrub, with small yellowish flowers in May-June. Especially valued for the orange-red fruit and extremely bril- liant autumn coloring. | Each | Per 10 |
|--|-------|--------|
| 2-3 ft | 3.00 | 27.00 |
| EUONYMUS alatus, Hv. Dwarf Winged Euonymus, 5-8 ft. | | |
| Similar to above, but slower growing and more compact. | | • |
| 18-24 in | 2.50 | 22.50 |
| EUONYMUS bungeanus, Winterberry Euonymus, 12-15 ft. | | |
| Yellowish flowers in June on a small tree of loose graceful habit. Profuse and persistent pinkish fruit with orange aril in October. | | |
| 5-6 ft | 5.00 | |
| EUONYMUS europaeus, European Euonymus, 14-20 ft. | | |
| Upright shrub or small tree, yellowish-green flowers in May. Brilliant in September-October with orange aril on a red or pink pod. | | |
| 3-4 ft | 2.50 | 22.50 |
| EUONYMUS latifolius, Broadleaf Euonymus, 14-20 ft. | | |
| Shrub or small tree, greenish-yellow flowers in May- June, and bright red and orange fruit in September. | | |
| 2-3 ft | 2.00 | 18.00 |
| 3-4 ft | 2.50 | 22.50 |
| 4-5 ft | 3.50 | 31.50 |
| 5-6 ft | 5.00 | 45.00 |
| EUONYMUS maacki, MAACK EUONYMUS, 8-16 ft. Large shrub or small tree from North China, Manchuria and Korea. Yellowish flowers in June and handsome pink and orange fruit. | | |
| 4-5 ft | 4.00 | 36.00 |
| FAGUS sylvatica, European Beech, 80-100 ft. This magnificent tree makes a noble lawn specimen, with glossy dark green leaves. Smooth gray bark. | | |
| 6-8 ft. B&B | 13.50 | |
| 8-10 ft. B&B | 17.50 | |
| 10-12 ft. B&B | 25.00 | |

| xFORSYTHIA intermedia spectabilis, Hv. Showy Border Forsythia, 7-10 ft. More compact than old fashioned kinds, and showier in flower. | Each | Per 10 |
|---|---------------------|---------------|
| 2-3 ft | 1.00 | 9.00 |
| 3-4 ft | 1.50 | 13.50 |
| FORSYTHIA ovata, Early Forsythia, 5-8 ft. A new distinct and handsome species from Korea and the earliest to bloom. Makes a broad shrub. Sure to flower in northern latitudes where others usually fail. Wine colored autumn foliage. | | |
| 15-18 in | 1.00 | 9.00 |
| 18-24 in | $1.50 \\ 2.25$ | 13.50 20.25 |
| 2-3 ft | $\frac{2.25}{3.00}$ | 20.23 27.00 |
| ∂- 4 П | 9.00 | 21.00 |
| GALAX aphylla, GALAX A very lovely little evergreen herb with delicate white flower spikes up to two feet or more in May. The beautiful heart-shaped leaves are glossy green, turning brilliant scarlet in autumn when exposed to the sun. A fine groundcover plant for Rhododendrons, Azaleas, etc. | | |
| Strong plants | 1.00 | 9.00 |
| GAYLUSSACIA brachycera, Box Huckleberry Fine native evergreen groundcover, with white or pinkish flowers in May-June, followed by blue fruit in July or August. Very rare. | | |
| 3-6 in. spread (pot grown) | 1.25 | 11.25 |
| GENISTA pilosa, Silkyleaf Woadwaxen Low prostrate shrub with bright green ascending branches and yellow pea-shaped flowers in short racemes in June. | | |
| 12-15 in | 2.50 | |
| GINGKO biloba, Gingko, 80-130 ft. A picturesque tree from China, relic of an ancient group. Curious fan-shaped leaves. | | |
| 3-4 ft | 2.00 | |

MOVING LARGE SPECIMEN TREES. Our tree moving equipment is especially designed for safely transplanting large Evergreens or Shade Trees up to almost 1 foot in diameter. We have many handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbance to the root systems, largely eliminating risks.

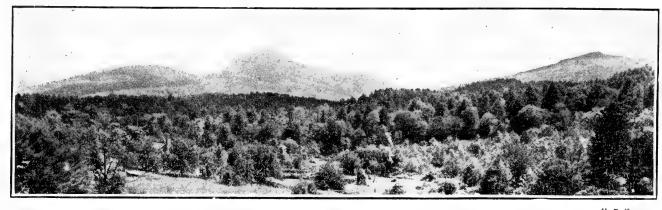

The Lovely G A L A X

This beautiful native plant carpets hundreds of acres of woodland floor in the Southern Appalachian region.

It will flourish in the North in woodland humus-filled soils, and in the garden where such soil conditions can be provided.

| HALESIA carolina, CAROLINA SILVERBELL, 10-25 ft. A fine shrub, with handsome white bell-shaped flowers in early spring. Yellow autumn foliage. | Each | Per 10 |
|--|--------------|--------|
| 5-6 ft heavy clumps | 7.00 10.00 | |
| HALESIA monticola, Mountain Siverbell, 30-100 ft. White pendulous bell-shaped flowers in May (rarely pinkish) give this native tree unusual appeal. Attractive striped bark when young, scaly later. Another fine Kelsey introduction. | | |
| 3-4 ft | 3.00 | 27.00 |
| 4-5 ft | 4.50 | 40.00 |
| 5-6 ft | 6.00 | 54.00 |
| HAMAMELIS vernalis, Vernal Witchhazel, 6-15 ft. A real gem. The fragrant yellow flowers, the sepals reddish inside, appear on warm days from January to March. Fine heavy green foliage, turning yellow in autumn. | | |
| 3-4 ft | 2.25 | 20.25 |
| 4-5 ft | 3.00 | 27.00 |
| HAMAMELIS virginiana, Common Witchhazel, 10-20 ft. | | |
| Bright yellow flowers in September-October. | | |
| 4-5 ft | 2.25 | 20.25 |
| 5-6 ft | 3.00 | 27.00 |
| (21) | | |

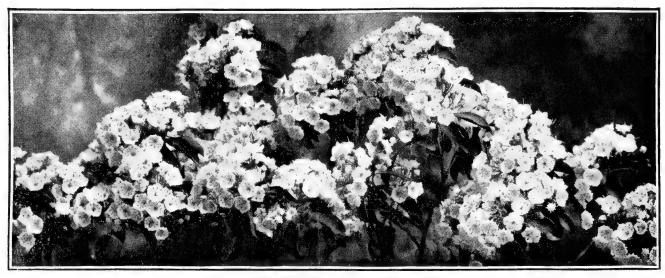

H.P.K.

Grandfather Mountain, in North Carolina where some of our most rare and beautiful native plants are found.

| HYDRANGEA arborescens grandiflora, Snowhill Hydrangea, 3-6 ft. Very showy white flowers in June or July. A fine border shrub. | Each | Per 10 |
|--|---------------------|------------------|
| 18-24 in | 1.25 | 11.25 |
| HYDRANGEA paniculata, Panicle Hydrangea, 8-30 ft. White flowers in August-September. A very beautiful Japanese species, usually a large shrub but occasionally treelike. | | |
| 3-4 ft | 1.75 | 15.75 |
| HYDRANGEA paniculata (grandiflora), Hv. Peegee Hydrangea, 6 ft. The common showy variety, with large trusses of white flowers, turning to pink shades later. | | |
| 2-3 ft | 1.25 | 11.25 |
| ILEX glabra, Inkberry, 4-6 ft. Hardy evergreen shrub holly, with glossy green leaves and black fruit. Fine in the ericaceous border, and in foundation plantings. | | |
| 9-12 in. B&B | $\frac{2.00}{3.00}$ | $18.00 \\ 27.00$ |
| ILEX montana, Mountain Winterberry, 10-40 ft. Small white flowers in May. Brilliant scarlet fruit in Fall. A rare Carolina mountain species. Not evergreen. | | |
| 5-6 ft | 3.50 5.00 | 31.50 |
| ILEX verticillata, Common Winterberry, 6-12 ft. In June and July the white flowers appear. In Fall comes the bright red persistent fruit. | | |
| 3-4 ft | $1.50 \\ 2.25$ | 13.50 20.00 |

| JUGLANS nigra, Eastern Black Walnut, 75-150 ft. A tall tree with deeply furrowed bark and handsome dark green foliage. | Each | Per 10 |
|---|---|------------------|
| 2-3 ft | $\begin{array}{c} 1.50 \\ 2.00 \end{array}$ | 13.50 18.00 |
| JUNIPERUS chinensis (pfitzeriana), Hv. Pfitzer Chinese Juniper, 3-8 ft. | | |
| A very hardy and popular wide spreading form with green or grayish-green foliage. Fast growing. | | |
| 12-15 in. spread | 2.75 | |
| JUNIPERUS chinensis sargenti, Sargent Chinese Juniper | | |
| Fine evergreen with creeping stems and ascending branches. Splendid groundcover. | | |
| 9-12 in. spread B&B | 2.00 | 18.00 |
| 12-15 in. spread B&B | 3.00 | 27.00 |
| JUNIPERUS communis depressa, Oldfield Common Juniper, 2-4 ft. Rarely exceeding four feet in height, and usually almost prostrate. This fine hardy native evergreen is one of the most valuable for landscape purposes. | | |
| 18-24 in. spread B&B | $3.00 \\ 4.50$ | $27.00 \\ 40.50$ |
| JUNIPERUS communis hibernica, Irish Juniper, 6- 10 ft. | | |
| A narrow columnar variety, not long-lived. | | |
| 15-18 in. B&B | $\begin{array}{c} 1.50 \\ 2.00 \end{array}$ | 13.50 18.00 |
| JUNIPERUS communis suecica, Swedish Juniper, 6-10 ft. | · | |
| Columnar form with bluish-green leaves. | | |
| 15-18 in. B&B | $\frac{1.50}{2.00}$ | 13.50 18.00 |

| 7-8 ft. B&B | 27.50 | |
| 8-10 ft. B&B | 37.50 | |
| PINUS sylvestris rigensis, RIGA SCOTS PINE, 50-75 ft. Similar to common Scots Pine, but with straighter stem and redder bark. 10-12 ft. B&B | 27.00 | |
| 10 12 It. B&B | 35.00 | |
| PINUS thunbergi, Japanese Black Pine, 30-100 ft. A Japanese species, with bright green needles. Picturesque in growth. Fine for seashore. Sometimes injured in severe winters north of Boston. | NSSE | |
| 3-4 ft. B&B | 7.00 | |
| 4-5 ft. B&B | 10.00 | |
| 5-6 ft. B&B | 15.00 | |
| POPULUS generosa, 70-100 ft. Fast growing and handsome Poplar, with large green leaves. | | |
| 8-10 ft | 3.50 5.00 | |
| POPULUS maximowiczi, Japanese Poplar, 75-100 ft. A handsome Poplar, of vigorous growth. Wide spreading branches. | | |
| 4-5 ft | 1.50 | |
| 5-6 ft | 2.00 | |
| POPULUS nigra, Hv. Lombardy Poplar (italica), 40-60 ft. | | |
| Fast growing, narrow, columnar tree. | | |
| 5-6 ft | 2.00 | 18.00 |
| 6-8 ft | 2.50 | 22.50 |
| 8-10 ft | 3.00 | 27.00 |
| 10-12 ft | 3.50 | 31.50 |
| PRUNUS besseyi, Bessey Cherry, 3-5 ft. | | |
| Hardy western species, with white flowers in early spring, and sweet purple-black fruit. | | |
| 3-4 ft | 2.25 | 20.25 |
| | | |

Moving Large Specimen Trees. Our tree moving equipment is especially designed for safely transporting large Evergreen or Shade Trees up to almost 1 foot in diameter. We have many handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbance to the root systems, largely eliminating risks.

Double Pink ALMOND CHERRY

One of the most popular flowering shrubs

2-3 ft., \$1.50 each, \$13.50 per 10.

RHODODENDRONS

We list here some of the most desirable native and exotic species. All prefer a rich acid, peaty, well-drained soil for best results.

| RHODODENDRON canadense, Rhodora, 2-3 ft. A much branched deciduous shrub, valued for its early rose-purple flowers in April. | Each | Per 10 |
|--|----------------------|-------------------------|
| 18-24 in. B&B | 3.50 | 31.50 |
| RHODODENDRON canadense albiflorum, White Rhodora, 2-3 ft. Very rare and lovely pure white form. Only a few available. | | |
| 15-18 in, B&B | 12.00 | |
| RHODODENDRON carolinianum, Carolina Rhodo- dendron, 4-8 ft. Pink flowers in May-June. A hardy American species introduced by Harlan P. Kelsey many years ago. Blooms profusely when still a small plant. | | |
| 15-18 in. B&B | 5.00 | |
| RHODODENDRON carolinianum album, White Carolina Rhododendron, 4-8 ft. Also introduced by Harlan P. Kelsey, this white form is especially attractive when planted with the pink. | | |
| 15-18 in, B&B | 5.00 | |
| RHODODENDRON catawbiense, CATAWBA RHODODENDRON, 7-20 ft. Bright red-purple flowers in May and June. Very hardy. Bright glossy green leaves. | | |
| 15-18 in. B&B | 5.00 6.25 7.50 | 45.00 55.00 67.50 |
| RHODODENDRON laetivirens, Wilson Rhododen- dron, 4-5 ft. A compact low shrub with rose-colored flowers in June or early July. Glossy green leaves. | • | |
| 9-12 in. spread B&B | 3.50 4.50 6.00 | 31.50 40.50 54.00 |

| RHODODENDRON maximum, Rosebay Rhododen- dron, 10-40 ft. | Each | Per 10 |
|--|------------------|---|
| White or pink-tinged flowers in June or July. A fine hardy American species. | | |
| 18-24 in. B&B | 4.50 5.50 | 40.50 49.50 |
| 2½-3 ft. B&B | 7.00 | 63.00 |
| $3-3\frac{1}{2}$ ft. B&B | 10.00 14.00 | 90.00 |
| 4-5 ft. B&B | 20.00 | |
| RHODODENDRON minus, PIEDMONT RHODODENDRON, 6-10 ft. | | |
| Similar to Carolina Rhododendron, but flowering later, after the young leaves are well developed. | | |
| 4-5 ft. B&B | $16.00 \\ 20.00$ | |
| RHODODENDRON mucronulatum, Korean Rhodo- dendron, 5-7 ft. | | |
| A fine deciduous species, especially valuable for its very early rose-colored flowers in late March or early April. | | |
| 15-18 in. <u>B&B</u> | 4.00 | 36.00 |
| 18-24 in. B&B | 5.00 | 45.00 |
| $2-2\frac{1}{2}$ ft. B&B | $6.50 \\ 8.50$ | $\begin{array}{c} 58.50 \\ 76.50 \end{array}$ |
| RHODODENDRON myrtifolium, Myrtle Rhododen- dron, 4-5 ft. | | |
| A compact spreading shrub, with gray green leaves and light rose-pink flowers in June or early July. | | |
| 12-15 in. B&B | 4.50 | |
| RHODODENDRON smirnowi, Smirnow Rhododen- dron, hybrid seedlings, 4-7 ft. Unusually large flower trusses in May or June. | | |
| Varying shades of pink. | | |
| 15-18 in. B&B | 6.00 | |
| 18-24 in. B&B | 8.00 | |
| ROBINIA kelseyi, Kelsey Locust, 6-9 ft. A very handsome and graceful shrub, with bright rose-colored flowers profusely borne in May or early June. Interesting purplish fruits. | | |
| 3-4 ft | 2.00 | |
| ROBINIA leucantha A very rare white locust, the beautiful flowers appearing in May. Only a very few plants available. | | |
| 2-3 ft | 10.00 | |

| ROSA hugonis, Father Hugo Rose, 4-6 ft. Bright yellow flowers in May or June. A general favorite. | Each | Per 10 |
|---|--------------|--------|
| | 1.50 | 13.50 |
| 2-3 ft | 1.50 | |
| 3-4 ft | 2.25 | 20.25 |
| ROSA rugosa, Rugosa Rose, 3-5 ft. | | |
| Upright shrub with large single reddish-purple flowers from May to September. Brilliant brick-red fruit. A splendid hedge plant. Attractive to birds. Especially useful along seashore. 18-24 in | 1.25 | 11.25 |
| 10-2.F III, | 1127 | |
| ROSA setigera, Prairie Rose, 6-8 ft. Pink flowers in June on a half climbing shrub of vigorous growth. Very hardy. | | |
| 2-3 ft | 1.00 | 9.00 |
| xSALIX blanda, Wisconsin Weeping Willow, 50 ft. Sometimes called the Niobe Willow, this fine tree has a wide spreading head and pendulous branches. | | |
| 5-6 ft | 3.00 | 27.00 |
| SALIX matsudana (tortuosa), Hv. Contorted Han- kow Willow, 30 ft. Very curious upright tree with twisted and contorted | | |
| branches. | | |
| 5-6 ft | 6.00 | |
| | | |
| 6-8 ft | 8.00 11.00 | |
| 8-10 ft | 11.00 | |
| SALIX purpurea, Hv. Dwarf Purpleosier Willow, 4-5 ft. | | |
| This fine species makes a compact, much-branched shrub, valuable for low hedges, or in the shrub border where a low plant is wanted. | | |
| 2-3 ft | 2.00 | • |
| 3-4 ft | 3.00 | |
| SHORTIA galacifolia, Oconeebells, 6-9 in. Beautiful low native evergreen, with small galax-shaped leaves, and lovely white bell-shaped flowers in earliest spring. | | |
| Clumps | 1.25 | |
| | 1,20 | |
| SOPHORA japonica, Japanese Pagodatree, 50-80 ft. A round headed tree with spreading branches, especially valued for its huge panicles of yellowish-white flowers in August or September. | | |
| 5-6 ft | 10.00 | 90.00 |
| 6-7 ft | 15.00 | |
| 7-8 ft | 20.00 | |
| 8-10 ft | 25.00 | |

| SORBUS aucuparia, European Mountainash, 40-60 ft. White flowers in May, and bright red or orange-red clusters of fruit in August and September. This beautiful tree is attractive to birds. | Each | Per 10 |
|---|---------------------|-----------------------|

MOVING A LARGE TREE

Our tree moving equipment is especially designed for safely transplanting large Evergreens or Shade Trees up to almost 1 foot in diameter. We have many handsome specimens of Pine, Hemlock, Spruce, Fir and Shade Trees in wide variety from 10 to 30 feet in height. These are moved with large balls with little disturbance to the root systems, largely eliminating risks.

Vines

| ARISTOLOCHIA durior, Common Dutchmanspipe Rapid growing vine with large leaves, greenish-yel- low flowers in May. | Each | Per 10 |
|---|-------------|-----------------|

Lists of Plants for Special Environments and Purposes

PLANTS SUITABLE FOR ROCK GARDENS

EVERY Rock Garden has problems of its own. No list of this nature can in any way be complete—it can merely suggest a few of the varieties that are being successfully used in the finest American Rock Gardens. Herbaceous perennials are not included, as use of the various kinds depends on the type and size of the rock garden. We will gladly make recommendations of perennials to use for given types of rock gardens.

Abies fraseri prostrata Arctostaphyllos uvaursi Azalea obtusa Azalea yedoensis poukhanensis Buxus microphylla koreana Calluna in variety Cornus stolonifera, Hv. Kelseydwarf Cotoneaster horizontalis Cotoneaster horizontalis perpusilla Cotoneaster horizontalis wilsoni Cotoneaster microphylla Daphne cneorum Daphne mezereum Erica carnea Galax aphylla Gaylussacia brachycera Genista pilosa Juniperus chinensis sargenti Juniperus communis depressa Juniperus communis hibernica Juniperus communis suecica

Juniperus horizontalis Juniperus horizontalis douglasi Juniperus horizontalis plumosa Juniperus squamata Leiophyllum buxifolium prostratum Pachistima canbyi Picea, Dwarf Alberta Spruce Pieris floribunda Pieris japonica Pinus mugo mughus Rhododendron laetivirens Rhododendron myrtifolium Salix, Dwarf Purpleosier Willow Taxus in variety Thuja, Booth Globe Thuja, Douglas Pyramidal Thuja, Reid Thuja, Tom Thumb Vaccinium vitisidaea majus Vaccinium vitisidaea minor

A fine naturalistic rock garden planting designed and planted by Harlan P. Kelsey, Inc.

BERRY BEARING PLANTS

Plantings for Birds. Birds add beauty and song to the gardens, and are of greatest value in curbing insect damage. Every garden should include plants that provide natural bird food and cover. We know what these plants are and will gladly help you plan their proper use. This list includes only berry-bearing plants. It should be realized that most of the Pines, Firs, Spruces and other evergreens attract certain seed-eating birds, especially in fall and winter.

Amelanchier canadensis, reddish-purple Amelanchier laevis, purple or nearly black Amelanchier oblongifolia, black Aronia melanocarpa, black Arctostaphyllos uvaursi, bright red

Berberis koreana, red Berberis sieboldi, bright red Berberis thunbergi, red

Chionanthus virginicus, dark blue Cornus alternifolia, dark blue Cornus florida, scarlet Cornus racemosa, white Cornus sanguinea, purple-black Cornus stolonifera, white Cotoneaster dielsiana, coral-red Cotoneaster divaricata, red Cotoneaster horizontalis, red Cotoneaster horizontalis perpusilla, red Cotoneaster horizontalis wilsoni, red Cotoneaster lucida, black Cotoneaster microphylla, scarlet Crataegus arnoldiana, crimson Crataegus coccinoides, dark crimson Crataegus crusgalli, bright red Crataegus phaenopyrum, scarlet

Daphne mezereum, red

Euonymus alatus, orange-red
Euonymus bungeanus, pink and orange
Euonymus europaeus, red or pink and
orange
Euonymus latifolius, bright red and
orange
Euonymus maacki, pink and orange

Gaylussacia brachycera, blue

Ilex glabra, black Ilex montana, scarlet Ilex verticillata, bright red

Juniperus chinensis sargenti, blue Juniperus communis depressa, blue Juniperus horizontalis, light blue Juniperus horizontalis douglasi, blue Juniperus horizontalis plumosa, blue Juniperus squamata, red-brown to purple-black Juniperus virginiana, blue

Ligustrum amurense, black Ligustrum ibolium, black Lonicera korolkowi, bright red Lonicera, Hv. Red Tatarian, red Lonicera, Hv. Rosy Tatarian, light red Lonicera, Hv. White Tatarian, red

Malus atrosanguinea, red Malus baccata, red or yellow Malus baccata mandshurica, dark scarlet Malus, Hv. Dolgo, bright red Malus floribunda, yellow Malus floribunda, Hv. Bob White, yellow Malus floribunda, Hv. Kelsey, yellow Mauls halliana spontanea, purplish Malus, Hv. Hopa, red Malus hupehensis, yellow, red cheek Malus micromalus, yellow Malus purpurea, Hv. Eley, purple Malus robusta, red Malus robusta, Hv. Column, red Mitchella repens, scarlet Morus alba tatarica, red Myrica pensylvanica, waxy-white

Nyssa sylvatica, bluish-black

Phellodendron sachalinense, black Photinia villosa, bright red Prunus besseyi, purple black Prunus maritima, purple Prunus tomentosa, red

Rhamnus davurica, black Rosa rugosa, brick-red Rosa setigera, red

Sorbus aucuparia, orange-red Sorbus commixta, bright red Sorbus intermedia, orange-red Symphoricarpos albus, white Symphoricarpos orbiculatus, red

Taxus canadensis, red Taxus cuspidata (spreading), red Taxus cuspidata (upright), red Taxus cuspidata, Hv. Thayer, red Taxus media, Hv. Hatfield, red Taxus media, Hv. Hicks, red

Vaccinium corymbosum, blue-black Vaccinium vitisidaea majus, dark-red Vaccinium vitisidaea minor, red Viburnum dentatum, blue Viburnum dilatatum, scarlet Viburnum lantana, red, turning black Viburnum lentago, blue-black Viburnum pubescens, blue-black Viburnum sargenti, scarlet Viburnum trilobum, scarlet

GROUNDCOVER PLANTS

A list such as this cannot hope to cover all kinds of plants that may be used as groundcovers. In large landscape projects such plants as Mountainlaurel Kalmia, (Kalmia latifolia), many varieties of medium to tall growing shrubs and the like might be used for broad groundcover effects.

Our intention here is not to cover this kind of use, but to indicate the plants that are useful as groundcovers in the commonly accepted sense of the word. In general, therefore, the list is limited to plants which rarely exceed three feet in height, even in maturity. There are some exceptions, in the case of such plants as Dwarf Japanese Yew (Taxus cuspidata nana), which, although eventually it would normally reach five or six feet in height, can be maintained almost indefinitely by pruning at a height of two feet or less.

For your convenience in choosing the kind of groundcover best suited for your purpose, we have indicated the approximate normal height of the plants listed as follows.

Where two letters occur it indicates a variable species, some individuals of which are lower than others.

P — prostrate or trailing S — less than one foot tall

M — one to two feet tall L — Over two feet tall

Plants for Autumn Coloring

Acer platanoides, bright yellow
Acer rubrum, red, rarely yellow
Acer saccharum, scarlet-orange or yellow
Acer tataricum, yellow
Amelanchier laevis, purplish-red
Arctostaphylos uvaursi, red-purple
Aronia arbutifolia, red
Aronia melanocarpa, red
Azalea arborescens, red
Azalea obtusa, reddish-purple
Azalea obtusa kaempferi, crimson
Azalea schlippenbachi, yellow, orange or
red
Azalea vaseyi, red
Azalea yedoensis poukhanensis, reddishpurple

Berberis koreana, deep red
Berberis sieboldi, vinous red
Berberis thunbergi, brilliant red
Berberis thunbergi atropurpurea, purplered
Betula lutea, yellow
Betula papyrifera, yellow
Betula pendula, yellow
Betula pendula gracilis, yellow
Betula populifolia, yellow

Calluna vulgaris, Hv. Cuprea, bronze
Carpinus betulus, yellow
Carpinus carolinianum, yellow
Cladrastis lutea, yellow
Clethra alnifolia, red
Cornus in variety, red
Cotoneaster horizontalis, red
Cotoneaster horizontalis perpusilla,
orange-red
Cotoneaster horizontalis wilsoni, orangered
Crataegus coccinoides, red
Crataegus crusgalli, orange and scarlet
Crataegus phaenopyrum, bright red

Euonymus alatus, brilliant red Euonymus alatus, Hv. Dwarf, red Euonymus bungeanus, yellow and red Euonymus europaeus, red Euonymus sachalinensis, red

Fagus sylvatica, yellow Forsythia ovata, wine colored

Galax aphylla, scarlet Gaylussacia brachycera, red Ginkgo biloba, yellow

Halesia carolina, yellow Hamamelis vernalis, yellow Hamamelis virginiana, yellow The plants in this list are especially valuable for the great variety of their foliage colors in autumn. This autumn coloring gives added value in the garden in the season when flowers are few and far between. New England is famous for its autumn coloring and many of the plants listed below have contributed to that fame, especially Red Maple, (Acer rubrum), Sugar Maple, (Acer saccharum), Birches, (Betula in var.), Dogwood, (Cornus in var.), Blueberry (Vaccinium), and the Oaks (Quercus).

Juniperus horizontalis douglasi, pale purple Juniperus horizontalis plumosa, purple

Larix leptolepis, yellow Leucothoe catesbaei, red

Malus hupehensis, red and purple

Nyssa sylvatica, bright crimson

Oxydendrum arboreum, brilliant scarlet

Phellodendron sachalinense, bright yellow Photinia villosa, bright red

Quercus alba, vinous-red or violet-purple Quercus borealis, dark red Quercus coccinea, brilliant scarlet Quercus imbricaria, russet-red Quercus palustris, brilliant red

Rhododendron carolinianum, red Rhododendron mucronulatum, scarlet

Sorbus commixta, red Spiraea prunifolia, orange Spiraea thunbergi, orange and scarlet Symphoricarpos orbiculatus, red Syringa oblata dilatata, vinous red

Vaccinium corymbosum, red Viburnum carlesi, deep wine-red Viburnum dentatum, red Viburnum dilatatum, dull-red Viburnum pubescens, red Viburnum sargenti, red Viburnum trilobum, red

PLANTS FOR MOIST SOILS

Many plants will not stand a location that is quite moist a great deal of the time. These varieties, however, seem to enjoy considerable moisture if proper drainage is provided. In many cases it increases their growth and gives them finer foliage.

Care must be used in choosing varieties that will best suit your particular

location and we are prepared to help you plan correctly.

Abies in variety
Acer in variety
Ailanthus altissima
Amelanchier in variety
Azalea arborescens
Azalea calendulacea

Thuja in variety

Ulmus pumila

Vaccinium corymbosum Viburnum dentatum Viburnum trilobum

PLANTS FOR DRY SOILS

Often it is extremely difficult to find plants that will thrive in soil that is quite dry. These plants are among the best for such situations and when established seem to enjoy well-drained and rather dry soil, although many will do well under moist soil conditions and may also be found in the following list.

Ailanthus altissima
Arctostaphylos uvaursi
Betula populifolia
Calluna, in variety
Genista pilosa
Juniperus, in variety
Lonicera japonica halliana
Myrica pensylvanica
Picea pungens
Pinus mugo
Pinus mugo mughus
Pinus resinosa
Pinus strobus

Pinus strobus pyramidalis Pinus sylvestris rigensis Populus, in variety Prunus besseyi Prunus maritima Robinia kelseyi Rosa rugosa Rosa setigera Sophora japonica Symphoricarpos albus Symphoricarpos orbiculatus Xanthorhiza apiifolia

PLANTS FOR SEASHORE CONDITIONS

IN PLANTING nursery stock near the shore it is advisable to select plants that will withstand the attacks of ocean winds and salt spray. Only comparatively resistant kinds are listed here, and even these will sometimes suffer in the most severe seashore exposures. Many others will do well near the seashore with a little more protection.

Abies concolor Acer rubrum Amelanchier in variety Arctostaphylos uvaursi Berberis in variety Betula in variety Calluna in variety Celastrus orbiculata puncata Clethra in variety Cornus, shrub forms Cotoneaster in variety Crataegus in variety Erica carnea Euonymus alatus Euonymus alatus, Hv. PLANTS FOR SHADY PLACES

The following plants will do well in shady or semi-shady locations. Some will stand more shade than others. Good rich peaty soil is always desirable. If your problem is unusually difficult because of heavy shade, we suggest a consultation on the grounds, at which time we will gladly suggest recommended plant materials, and soil conditioning when necessary. It should be noted that most of the species in this list will also do very well in sunny locations where soil conditions are suitable.

Amelanchier canadensis Amelanchier laevis Amelanchier oblongifolia Arctostaphylos uvaursi Aronia arbutifolia Aronia melanocarpa Azalea in variety

Calycanthus floridus Clethra alnifolia Clethra alnifolia rosea Cornus in variety

SALESGROUND AT OUR NURSERY Visitors are always welcome.

SEND FOR OUR SPECIAL LIST OF CHOICE PERENNIALS.

Terms and Conditions of Sale

- Nomenclature. The 1942 edition of "Standardized Plant Names" published by the American Joint Committee on Horticultural Nomenclature is authority for names used in this catalog.
- Prices in this catalog cancel all previous lists and quotations and are subject to change without notice. Retail prices include packing, except for bulky or unusual shaped plants or when special methods are requested; prices are f.o.b. East Boxford, Massachusetts. No charge for local truck delivery on our regular delivery routes and days.
- All orders are accepted subject to prior sale and to condition of stock at delivery date, under the following terms and conditions:
- **Grade.** We supply a standard grade of stock. Unusual specimen material or plants specially selected by customers at the nursery will be charged for according to value, irrespective of the catalogue list price.
- We warrant all plants to be of true name, full count, up to grade, and in good condition when shipped.

GUARANTEE

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper aftercare, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid by by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

- Terms. Cash with order or satisfactory reference from unknown customers. Established credit accounts are due in 30 days from date of invoice. C.O.D. orders must be accompanied by one-third of the amount. Overdue accounts are subject to interest at 6 per cent.
- Shipping Instructions should accompany order. State whether Freight, Express, Parcel Post or Truck, and give exact destination. Otherwise, we use our best judgment but assume no responsibility thereby. We deliver by truck all over New England and nearby states at reasonable rates. All goods are at purchaser's risk after delivery to forwarding companies in good condition. Claims for damage while in transit must be made against the delivery company.
- Claims for errors must be made in writing within 5 days after receipt of goods. Any mistake or fault on our part will be gladly rectified. Stock delivered as per order and in good condition is not returnable.
